EXPERIENCE

AOMTrading – Web Designer and Developer

December 2020 – Present

I designed and built the AOMTrading website using Wordpress. I worked with the founder to make this website user friendly and efficient. You can find this site at aomtrading.com .

Spell It Voice App – UI/UX Designer

Oct. 2021

I worked with a team to design and prototype an app that helps users learn to spell through speech recognition. Designed and prototyped using Maze.co, Figma, and Adobe XD

Narika.org Redesign – UI/UX Designer

Sept. 2021

A mobile-first redesign project for Narika.org, a domestic violence helpline. I worked with a team to gather user insights, conduct stakeholder interviews, prototype and test our updated

Americorps NCCC – Assistant Team Leader

June 2019– March 2020

Assisted in leading a team of 8-10 members in the Southwest region of the United States, completing community service with a variety of non-profit organizations.

EDUCATION

University of California Berkeley – UI/UX

An intensive 24-week long boot camp dedicated to UI/UX Design. I worked with teams to conduct user research, wireframe, prototype, develop user interfaces, and present case studies.
